Monique Baldwin

“When I came to England I was fortunate to find myself living in the Cotswolds. Being surrounded with so much natural wonder has a great influence on me and my passion for artistic creativity, something I’ve had from an early age.

“I think of myself as extremely lucky to earn a living doing something that I really love. It’s more like a full-time hobby than a job. This is undoubtedly helped by the fact that I work with like-minded people who are great fun and want to share their enthusiasm and love of their work with others. Hopefully all of this is encapsulated in the pieces we produce.”
