*Glutton for Punishment*

BY MASTER CARVER PETER CALVESBERT  
FIXED EDITION OF 200

Peter has carved several dozen models that incorporate cats. "Glutton for Punishment" is the first that he truly identifies with. He knows he should be out jogging or riding his bike, but just like all of those people with gym memberships, he really can't be bothered! Peter suggests you search "Fattest cats in the world" on the internet to view some unbelievable creatures. "Himmy" is a 48.6 pound Australian feline that holds the dubious honor of being the last cat in the Guinness Book of Records to hold the record for the world's fattest cat before they stopped taking entries in this category.
